**MUNICIPAL VOTE
REGISTRATION IS
9,000 FOR WEEK**

Registrar Makes This Estimate Following Close of First Draft Office

A registration of about 8,000 is, in the opinion of Registrar C. Mitchell, the result of the first week's registration of residents for the securing of the vote.

The registration offices closed at 9 o'clock on Thursday night, but the above figures are not definite, as all the registration offices will be open for five days the registration yielded a total of 5,046, and the registrar is of the opinion that another 4,000 at least will be added.

Those who have failed to do so up to now have still another opportunity, for the registration offices will be open for two consecutive days, Saturday and Sunday. Hereafter offices will be opened, one at the Tipton office at WhYTE AVE., and the other at the CIVIC block, starting on Monday morning at 9 a.m. and continuing from 9 a.m. to 5 p.m. throughout the week, and will take the names of those who want to make use of the privilege of voting, and the names of the mayor, aldermen and school trustees.

Miss Anthus, who arrived with the party from Victoria, Thursday evening, did not accompany them back to Toronto but remained in the city a guest at the Macdonald and leaves today for Calgary to visit friends there before proceeding to Winnipeg to visit her brother.

A miscellaneous linen shower in which were included many useful articles, was given the other night at the Apartments of the Tremont bldg. to Mrs. Rogers, where a number of the G.W.G. girls were present. After refreshments they passed a pleasant evening.

Senator Talbot, Lacombe, and Mrs. R. Talbot, Algonquin apartments, left last night for the east. Mrs. Talbot will visit in Detroit and points in Ontario, returning home in July.

Those who saw the three plays produced at the Empire Theatre by Mrs. Ethel Reese Burns during the winter will remember "The Maker of Dreams," which was done so well by Miss Ella Taylor, E. C. Davis and Tom Dalkin. This play is to be repeated at the military convalescent home on Tuesday, the 13th. Also Miss Helen Gorman and troupe will repeat "After the Honeymoon," a comedy. Master Cecil Martin and his sister, Miss Eloise, will take part and the Rotary club quartette will render several selections. There was a fairly good attendance at the meeting and a great deal of business was transacted, as this was the last of the season till the union resumes work in September. A discussion regarding the foreign work among the foreigners of which Mrs. (Dr.) Rush of Lamont is very much interested, occurred, but nothing definite was decided concerning same.

6. What makes a good curling fluid for the hair?

ANSWERS TO YESTERDAY'S INQUIRIES.

1. If a fire is too hot for broiling it can be cooked sufficiently in a short time by spreading over it a thin layer of ashes or a handful of salt.
2. A saving in butter can be effected if a pound of butter is put in a tiny butter merger which comes for the purpose. This, with the addition of a pint of ordinary milk, will make two pounds of butter.
3. Javelle water is made by pouring one gallon of boiling water over four pounds of bicarbonate of soda.
4. A widow upon remarriage is not attended by bridesmaids.
5. A bride wedding a widow may be attended by a maid or matron of honor, a flower girl or a page.
6. It is usual, though not necessary, for a widow to be given in marriage by her nearest male relative, as in the case of a young girl.

Couldn't Keep Back Tears

When the Nervous System Broke Down—Queer Feelings in Back of Head Caused Much Alarm.

Midland, Ont., May 26th.—Collapse or breakdown of the nervous system leaves one in a most pitiable condition. Strong, healthy-looking women, and men, too, will weep from helplessness and despair.

The case reported here was a most severe one, as is indicated by the hysterical condition, the pains in the back of the head and the fullness of the many treatments used.

This is further evidence that the regular and persistent use of Dr. Chase's Nerve Food for a reasonable length of time will positively restore the most exhausted nervous system.

Mrs. S. Sharp, Midland, Ont., writes:

"About eleven years ago I had a serious nervous breakdown and was so bad at times that I could not keep back the tears. I also had a queer feeling in the back of my head. Sometimes I seemed to be going backwards. I could not do any sewing, and finally could do no work at all. I tried other remedies and doctors' medicines, but they only gave me temporary relief. Last Fall I commenced using Dr. Chase's Nerve Food, and had not taken very many until I found I was getting better. I kept on taking them, and am at present greatly improved. I am not able to do my work, and they have strengthened me splendidly. I can highly recommend Dr. Chase's Nerve Food for nervous trouble of any kind."

Dr. Chase's Nerve Food, 50c a box, a full treatment of 6 boxes for \$2.50, at all dealers, or Edmanston, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Enemies of Tea

If tea is left open near oranges, soap, spices, matches, etc., the tea will take on the flavor of any of these articles.

In fact, tea absorbs odors as readily as does butter. This is because it becomes so dry and brittle in passing through the firing or drying oven that it becomes very sensitive to the moisture and odors in the air.

When loose in the chest or bin or bag it quickly loses flavor and strength. Tastes flat, weak, old; dear at any price.

This is why Red Rose is never sold in bulk—but always in sealed packages. The armour that keeps out dust and odors and keeps in the flavor and strength.

The price printed on the package protects you against overcharge. It is the lowest price for which a tea of Red Rose quality can be sold—a price which allows the grocer only a fair profit.

You will enjoy the distinctive flavor and rich strength of Red Rose Tea. Try a package.

Sold Only in Sealed Packages

**Alta. Red Cross Day
On the Anniversary
Of the Confederation**

To Citizens of Edmonton:

On the 1st of July citizens of Canada will be called upon to celebrate the jubilee of their country, the fiftieth anniversary of confederation. While rejoicing in the national greatness of our country and in the ideals of freedom which she upholds; while honoring to the full the foresight of the Fathers of Confederation to whose far visioned statesmanship we owe our place amongst the nations of the world, it is true, nevertheless, that few, if any of us at the present time feel inclined for general festivity. Our thoughts turn instinctively to those brave men, our fellow citizens who are giving their lives in defense of liberty, and whose deeds have made the name of Canada glorious for all time and amongst all the peoples.

In proportion to its population, the Province of Alberta, has given more men to the war than any province in Canada. Our casualty lists record daily the stories of those who have gone from us. Can we therefore, more fittingly commemorate the national birthday of our country than by dedicating the celebration of this day to help our sick and wounded? Their needs were never so great. It has been said that without the Red Cross our armies cannot win the war. Without adequate help the Red Cross cannot bring succor to our men who are suffering.

The Alberta Red Cross Society has requested that July 2nd next, on which date Dominion Day celebrations will be held, be observed as a Red Cross Day throughout the province. It is requested that all monies raised on that day either through ordinary holiday celebrations or through special efforts on the part of various societies and districts should be turned over for the use of the Red Cross. All sections of the community are urged to co-operate in a great Red Cross effort. In this connection circulars are being sent to the mayor of your town, to local clergy, school teachers and to the heads of all patriotic societies in the district and it is suggested that if possible the interest and sympathy of every man, woman and child, should be united on behalf of the Red Cross. Thousands of dollars are needed to successfully carry out our work. Let us make this day of confederation a day of Red Cross giving which shall create a noble precedent of generosity and remain forever a proud tradition in the history of our province.

Why the Red Cross Needs Help

Red Cross needs are greater than ever before, our reserve stores are depleted, demands upon the society are increasing.

We Are Pledged:

(1). To the care of our wounded and those of our allies.

(2). To the upkeep of our hospitals, convalescent homes, recreation huts, ambulances, transports, and supply depots.

(3). To the care of our prisoners of war. The Canadian Red Cross is responsible for all Canadian prisoners of war in Germany. Food supplies to the amount of \$15 a month must now be sent to each prisoner.

(4). To the upkeep of our information department, which supplies news of the wounded to relatives and friends and gives special care to men in hospitals, providing visitors, drives, entertainment, flowers, fruit, newspapers, parcels of supplies.

(5). To furnish thousands of cases of supplies each month.

(6). To assist convalescent homes and military hospitals in Canada, caring for returned soldiers.

Signed on behalf of the Canadian Red Cross Society, Alberta Provincial Branch.

M. PINKHAM,
Hon. Secretary-Treasurer.

CUPID'S COURT

LUND—ASHLEY

A quiet wedding took place on Monday afternoon, June 4th, at the Avonlea Apartments, Calgary, the home of Mr. and Mrs. McKockin, friends of the bride, between Miss Esther Cecile Ashley, daughter of Mr. and Mrs. W. H. Ashley, of Bolesval, Manitoba, and the Rev. Thomas Fenwick Lund of Edmonton. The ceremony was performed by the Rev. J. H. Riddell, D. D., L. L. D., of Edmonton.

STAPLES-BOWDEN

A very pretty wedding was solemnized at St. Mary's (Highland) church on Wednesday, June 6, at 6 p. m., between Mr. Hiram Staples of Fort Saskatchewan and Miss Fanny Bowden of Edmonton. The ceremony was performed by the Rev. J. Gordon Taylor. The bride, who was given away by her brother-in-law, Mr. S. Holland, of Harewood, was becomingly attired in a blue silk dress with hat to match, and carried a bouquet of Marooned Nell roses and white carnations. The bridegroom's present to the bride was a gold brooch set with pearls. The best man was Mr. Froese. After the ceremony a reception was held at the home of Mrs. E. F. Noster, a personal friend of the bride. The guests included 3rd, and Mr. Holland (sister and brother-in-law), Miss May and Miss Bessie Holland and Mrs. T. Tiffin (niece), Miss Staples, Mr. Ray Staples, Mr. Froese, Mr. Gordon, Mr. and Mrs. Mitchell, Mr. and Mrs. Tiffin, Miss Louie, Miss Dorothy Noster, Mrs. Marslett, Mr. Satchwell, Mr. Redfern, Mrs. Brabant, Mrs. Percy Mrs. Stevenson, Miss Bradshaw, Madam Sylvester and the Rev. Mr. Taylor. The happy couple left by auto to the Port at 8 p. m., where a reception awaited them, followed by the best wishes of their many friends.

The Woman's Missionary Auxiliary of Robertson church will hold their closing meeting on Monday afternoon at 3 o'clock in the lecture room of the church, when Miss Green, of Knox church, will give an address on "Work in Our Mission Hospitals." **Clear Your Complexion
While You Sleep**

On retiring gently smear the face with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water, using plenty of Soap and continue bathing few minutes with Soap. Rinse with tepid water. The cleansing, soothing influence of this treatment on the pores extends through the night. It may be repeated on rising.

Sample Each Free by Mail. Address post-card: Cuticura, Dept. M, Boston, U.S.A. Sold throughout the world.

**To Keep the Face
Fresh, Clear, Youthful**

More important than the cosmetic care of the complexion is its physical care. To keep the face clear, fresh, youthful, there's nothing better than ordinary mercurized wax. It absorbs the soiled or faded worn-out skin particles. Cosmetics simply add unwholesomeness to the complexion. That's the difference. By all means, acquire the mercurized wax habit. It's so easy to get an ounce of the wax at the druggist's, apply at night like cold cream and wash it off next morning. There's no detention indoors, the old skin coming off so gradually no one suspects you're using anything. When in a week or two the skin is youthful, resolute, underlain is fully in view—well, you won't want, or need, a make-up after that. It must be apparent that this process means complete riddance of all cutaneous blemishes, like freckles, pimples, blotches and black-heads.

For a wrinkled, loose or saggy skin, a face bath made by dissolving an ounce of powdered axolite in a half pint witch hazel, surpasses massage cream and everything else for results. Its action is instantaneous, and perfectly harmless. It improves facial contour wonderfully.

**TO RELIEVE CATARRHAL
DEAFNESS AND HEAD
NOISES**

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Parment (double strength), and add to it 1/4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

AMONG THE MISSING

Calgary, Messrs. Tweedie

Hillocks, who started the

campaign by trying to run the

show off the platform, ended

winning themselves into defeat.

They were among the most

prominent members of the Opposi-

tion in the last legislature. The

of Mr. Hillocks is not irre-

parable, but Mr. Tweedie was by

with of mind and force of

character the real leader of the

opposition, and almost any half

of Opposition members could

not be spared. If one of his

fortunate friends would con-

cede to resign and offer Mr.

de a seat in the new House,

he would be in the public inter-

ests of the province. Without

him the Opposition would

not be strong enough in de-

g talent to be useful.

TIME FOR A CHANGE

Looking through Mr. Mich-

ener's eyes at the Red Deer

election, either another seat

must be found for him or

he must be found for the Opposi-

tion in the Legislature. With

Mr. Michener and Mr. Tweedie

in the House, the logical

result by reason of business

experience, and the best man

able for the leadership would

be Mr. Ramsey, member

at Edmonton.

A DECLARATION OF

CONFIDENCE

It is no secret that the Opposi-

tion concentrated their efforts to

bring down the members of the Gov-

ernment, and that they had the

tions that Dominion officials should not dabble in Provincial politics notwithstanding.

OFF AGAIN, ON AGAIN

Mr. George Cloakey, having been beaten in Olds, and Mr. Ambrose Grey having met a like fate in Beaver River, these gentlemen are now open for reinstatement on the payroll of the Dominion Government, to which they were appointed after their defeat in 1913 and from which one resigned in January and the other in May to again "dabble in Provincial politics," as Sir Robert Borden calls it.

THE CAMPAIGN

The election campaign has the peculiar distinction of having been at once the quietest and the bitterest in the history of the province. The orderliness of the proceeding was largely due to the absence of whiskey and to the presence of women on the platforms and in the audiences at public meetings. Thanks to these two factors the rowdy element has been conspicuously scarce, excitable individuals generally have been under restraint, and the person who went to the meetings to learn something about public affairs had a fair chance to hear and think over what was said. For that grateful change all thanks are due.

Certainly the lack of excitement cannot be put down to any want of provocation. An Opposition with an appetite for power, and no reason to offer why it should be put in power, can usually be relied upon to make up in sound and fury what it lacks in argument. Mr. Michener's followers have always lived up to that tradition, but never so ably as during this campaign. If they missed any chance to arouse feeling and turn it to political account it was an oversight. Every circumstance that offered a chance to set class against class, or to malign the motives of the ministers, was worked to the limit, with disregard alike to fact, sense and consequence. A campaign of that sort is to be deplored, for it tends to destroy public morals, engender reasonless antagonisms and debase politics to brawling. And the party who will have most cause to deplore it is the party headed by Mr. Michener. If they imagine a campaign of that sort ends with election day they have another think coming. Having scattered the seed they will reap the harvest in the days to come.

SIR ROBERT SHOULD QUIT

The correspondence tabled in Parliament does not materially affect the impression that has been given by press despatches as to the situation at Ottawa and the negotiations for the formation of a coalition Government.

Sir Robert Borden announced conscription apparently without previously consulting either his colleagues or the Opposition. But when he found conscription defied by his Nationalist friends in Quebec and objected to by some important elements outside Quebec, he proposed to take some Liberals into the Government in hope that they would extricate him from the situation into which he had put himself.

His proposal was that he should retain the Premiership, and that the Ministry should be composed of Conservatives and Liberals in equal numbers. Also that the conscription measure he had already announced should not come into effect until after a general election. Sir Robert's view is that conscription cannot, or should not, be put into force without an appeal to the people; that conscription cannot carry if tied up to the present Government; but that if the Liberals would help he might be able to get re-elected to the Premiership on the strength of conscription.

This proposal had the obvious advantage that it offered a chance to get rid of half the present ministers. That, no doubt, is a commendable aim. But it is a consummation Sir Robert would gladly find a reason to bring about, and his sudden conversion to the coalition idea may be supposed to have been in part due to that consideration. And it is certainly not a development the public would have any cause to hail otherwise than with approval. Half the present Government could be spared with advantage, whoever succeeded them.

But if Sir Robert Borden has not been able to direct one Government in such a way that it can get the approval of the public to so vital a measure as conscription, what hope is there that he would be able to direct another Government any better? Obviously, and on Sir Robert's admission, the present Government has blundered on until it can blunder no farther. For that Sir Robert Borden, as Premier, is primarily responsible. And he is, as the cor-

respondence shows, personally responsible for the final announcement that has landed the Government in a position in which it can neither go ahead nor back up.

It should be apparent to Sir Robert Borden that, with the results of his leadership so painfully in evidence, the highest service he can render his country is to resign. If after three years' war, and with the fate of the country at issue, Sir Robert can neither get men to enlist voluntarily nor conscript them, it is time for him to quit. The proposal that, with this evidence of his incapacity so strikingly apparent, the Opposition should join in an attempt to subject the country to another five years of the same leadership is amazing in its audacity. Canada needs compulsory service, and a coalition Government may be the only way of putting compulsory service into operation; but Canada needs, first and foremost, a leader who can lead.

Germanism.

From Hansard Report, May 8, 1917.

Mr. O. Turgeon: We know what effect their education has had in corrupting the sentiments of the people and diverting them from humanitarian ideas. The industries developed under that education have marked their products "made in Germany." But though there was a great increase in industrial production there was no increase in Christian education. And consider some of the things that have been "made in Germany." Poison gas to be projected across their trenches to our lines where our soldiers fell by the thousand in agony; shells made to sink unwarned our hospital ships, with nurses and wounded, Germans among them; guns made to murder 20th Cavalry because of her humanitarian activities—all these have been "made in Germany." Surely no lover of humanity, no Christian today who looks at the aims of education in Germany will hold up that country as an example to the world in any respect whatever.

BELGIAN RELIEF WORK

Editor the Bulletin:

Sir,—In view of the fact that the United States Government has generously assumed all financial responsibility for the work of the Commission for Relief in Belgium, it has been decided that the National Committee for Relief in Belgium will suspend its appeals to the public in the British Empire. Any monies received after June 1st will be held to provide for emergencies now unforeseen in connection with relief in Belgium.

This course of action is in accordance with the suggestion made by Mr. Hoover, Chairman of the Relief Commission, who is now in Washington, and has the approval of His Majesty's Government and the Belgium Minister.

During the existence of the Committee over \$2,400,000, subscribed throughout the British Empire for the relief of our oppressed Allies in Belgium, has passed through its hands. The second annual meeting will be held at the Mansion House on June 15th, when opportunity will be taken to express gratitude to those committees and individuals who have co-operated with such marked devotion in the work of the national body.

Signed, on behalf of the National Committee:

W. H. DUNN,

Lord Mayor of London, Chairman.

Norah—An' did she give you a reference?

Bridget—Yes; I threatened to stay if she didn't.

Current Comment

One of the Marvels of the Struggle.

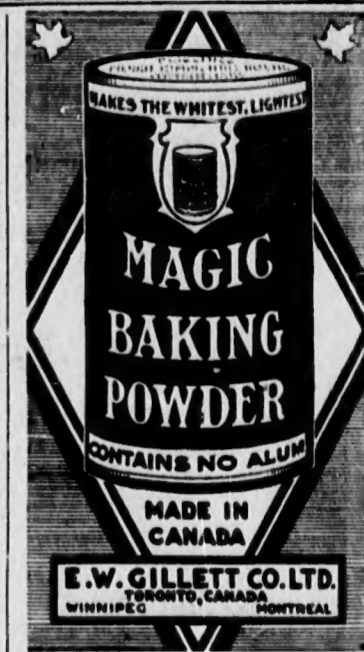

From London Daily Telegraph.

If arguments are the final arbiters of war, Germany, in spite of Moltke's belief that there could never again be a short war, should have succeeded. She placed her trust in armed men—ones vast military machine, wielded by autocratic authority; the British people confided in the spirit which gives life and strength, and from month to month they have been beating the enemy on his own ground. That constitutes one of the marvels of this struggle; it is one, too, which is responsible in large measure for the "holy hatred" of the Germans. They have been robbed of victory by men who despise Prussianism. As General Smuts recalled in his eloquent speech, we are fighting for something far greater even than the British Empire or the Allied countries, devastated by the foe. We are engaged in a crusade for the assertion of those elemental rights on whose triumph the future of civilization depends. "Our whole ideal is to be free, and to build up new countries under God's warm skies in other parts of the world, without the terror of militarism always overshadowing us."

Feeble-Minded Public.

From Ottawa Citizen, May 28.

A board of appraisal in Winnipeg, apart altogether from the judicial proceedings conducted by Mr. Justice Galt, has reported that the overpayments to the firm of Thos. Kelly and Son, with whom Justice Galt says Hon. Mr. Rogers was in collusion, amount to \$1,207,351, with interest at 5 per cent, since 1914, which brings the total up to about \$1,400,000. The Kelly firm is ordered to return this sum at once to the public treasury. In reply to such decisions and investigations as are indicated hereby, the minister of public works puts up a defense which consists in the statement that the whole affair is a mass of lies and a Grit conspiracy to ruin him, because

he is such a potent force for the success of his own party. Surely, the minister is not serious in this attitude. If he is, the people of the Dominion deserve to be served by such ministers and by a government which retains such a minister in its councils should they permit themselves to be classed as feeble-minded in this fashion.

The Difference.

The Allies want to make war in order to make a real peace, and the Central Powers want to make peace in order to make a real war—later on.

DR. SUGDEN IS MODEST ABOUT OWN EXPLOITS

Col. Primrose Would Like to Tell Truth Concerning R.N.W. M.P. Physician

Like a great many other adventurers and explorers, Dr. Sugden, who comes to the Empire next week with his Alaskan motion picture, "The Lure of Alaska," is very silent about his own personal bravery although most willing to spin a yarn about some other fellow's deeds of bravery. His lecture in Edmonton a short while ago was early interrupted by Lieut.-Col. Primrose of the Alberta police and formerly the Royal North West Mounted Police, who want to go on the stage during the intermission and tell the audience the truth of many things which the modest Doctor was overlooking. But the Doctor got wind of the conspiracy and put a stop to it, so the story was never related except in the dressing rooms.

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of Wilson's Fly Pads." This will cost very little and is sufficient to remove every hard soft corn from one's feet. A few drops of this new ether compound applied directly upon a tender, itching corn, should relieve the soreness instantly, and soon the entire corn, soft and all, dries up and can be rubbed out with the fingers. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freeseons are sticky, it dries in a moment, and simply shrivels up the corn without burning or even irritating the surrounding tissue or skin. Don't let father die of infection or blaw from whitening at his corns. Call this out and make him try it.

It was a wonderful tale of touch and go with death, and had it not been for the quick action and foresight of the Doctor ten men of the Royal North West Mounted Police would have gone to a sure and horrible death in the White Horse Rapids of the Yukon. They were working on a raft of logs that were supposedly well secured at the bank at White Horse. But the ropes were not secure, and before the men knew it, they were drifting rapidly, surely, into the maelstrom of Miles Canyon. They were helpless. Dr. Sugden seeing their plight and knowing their danger, as he was one of the government pilots at the time, put out in a skiff to give the aid he could. Reaching the raft, he managed to get hold of a line to carry ashore, but the frightened men on the raft, not seeing his intentions, would not play out the rope, but wanted Dr. Sugden to tow them.

In the wild, rushing current, it was all human muscles could do to even row a small boat upstream. The raft was entering the white water, and with a desperate determination, Dr. Sugden abandoned the line and rowed as hard as he could to the raft and ordered the men to crowd if they could into his tiny craft. His boat was so small that the men had to stand and hold on to each other. The water was already beginning to boil under them, but straining his muscles, as even they had not been strained before, the Doctor started to pull out of the rapids. Gradually he made headway; in a final effort he reached the bank and collapsed. The people of White Horse wanted to erect a monument to him, but he insisted that they do not. And so one would have known the story had it not leaked out in the dressing room.

EMPRESS

"Babette"—Vitaphone.
"Hypocrit"—William Fox.
Two big programs are billed for the

Empress theatre for next week, each of them to run for three days. For Monday, Tuesday, and Wednesday there will be seen "Babette," a Vitaphone Blue Ribbon feature, with Peggy Hyland and Marc McDermott in the leading roles. Accompanying it will be "Hypocrit," a William Fox release. "Easy Street." For the last three days there comes one of the best productions that has left the William Fox studios in many months. "Hypocrit," featuring Virginia Pearson. On the same program will be the Mutt and Jeff cartoon and the Pathe Weekly Gazette. "Babette" founded on the story of F. Beverly Smith, is made of stuff that endures, and Vitaphone made a happy selection in the cast. It is one of those plays in which a very high grade of accomplishment is reached. Miss Hyland has never appeared to better advantage. Mr. McDermott ideally suits the role of a strong man whose powers can be directed to good or evil, as environment suggests, with a balance always in favor of good. Many, many touches are shown which help build up the pleasing character which the audience will be intensely interested in seeing with out against severe odds, and the odds can be imagined when it is said:

WHEN USING WILSON'S FLY PADS READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

Far more effective than Sticky Fly Catchers. Clean to handle. Sold by Druggists and Grocers everywhere.

that the theme of the story is the conversion of a criminal through contact with purity and maidenly sweetness. The dungeon scenes, the studio scenes, and, in fact, the whole atmosphere of the production speaks exceeding care on the part of the director, Charles Brabin. George N. Sroog in the Motion Picture News said: "Babette" is sure to please any audience. Society comes in for its share of muck-raking in the Fox production "Hypocrit," which stars that noted stage and screen southern beauty, Virginia Pearson. Her part is that of a young society woman, whose fondness for gambling draws her into the pitfalls of so-called high society. The picture has many situations that are found only in Fox films, and altogether is a drama of sound moral and intrinsic merit.

AMENDMENT OF INSURANCE BEFORE HOUSE

Legislation Rendered Necessary By Reason Of Decision Of The Privy Council.

OTTAWA, June 7.—In the house of commons this afternoon Sir Thomas White explained in reply to D. D. Mackenzie, on the second reading of the insurance bill, that the purpose of it was to re-enact the present insurance legislation as the result of a declaration by the privy council that a portion of it was ultra vires. When the present legislation was enacted it was assumed that a company incorporated by a province would have to secure a Dominion license in order to allow it to do business outside of the province which had incorporated it, but by the ruling of the privy council this was not so. By the new bill, therefore, Sir Thomas explained, the Dominion would not have jurisdiction over a provincially incorporated company doing business outside of the province, but a provision was made under which such a company might voluntarily seek a Dominion license.

Sir Thomas said there was a provision to permit insurance contracts for fire and automobile in a single policy. There was also another provision which prohibited financial statement including surplus as paid-up capital unless it was so stated. There was a clause which gave the superintendent of insurance power to compel companies to reinsure, if necessary, protective policy holders. It was possible now for a company to make improvement contracts with agents. It was felt by the insurance department that the legislation should give the insurance department power to prevent such contracts. The bill limited the powers of a company to invest securities in another company. This was to prevent interlocking of directors. The directors were also made responsible for unauthorized investments. Sir Thomas said that it had come to his knowledge that companies had invested in unauthorized securities. There was now no authority to deal with directors in such a case. Sir Thomas said there were important provisions dealing with hail insurance companies. Many now did not carry on business without adequate reserve funds. The amended law will compel them to accumulate profits until they have a reserve of 50 per cent of the premiums of the previous calendar year.

This was to safeguard the farmers. There were also provisions providing for a greater measure of control in the organization of companies. Sir Thomas said he would not have brought down this measure this session if the administration of the act had not been paralyzed on account of the doubt cast on the entire legislation by the privy council. A mere amending bill would not have been satisfactory. Hon. George F. Graham emphasized the confusion which had resulted as a result of the decision of the privy council. Among other suggestions he thought that the system now followed by companies of following market values in figuring out reserves at the end of the year should not be so closely adhered to.

OF INTEREST TO ADVERTISERS

A limited amount of advertising matter will be accepted for insertion. The fact that there is no publication used as regularly and often in the city and province as the Telephone Directory makes it one of the best mediums for placing your business prominently before the public.

IT IS USED BY OVER 9,000 PERSONS 40,000 TIMES DAILY.

ADEQUATE TELEPHONE SERVICE

"Busy" telephone lines mean lost orders. You are probably trying to make one telephone do the work of two or more. If you are, your business is not properly protected. Take this opportunity of improving your telephone facilities.

Treason's Twilight Zone

Aid and comfort to our German enemy assume a peculiarly insidious and subtle form, as we are warned by leading papers in various parts of the country, by the attempts of certain journals to confuse the minds of the people in the United States about its motives in entering the war, and to implant seeds of suspicion and distrust concerning the Allies of the United States.

On this subject the Chicago Herald very clearly and strongly says, "It's about time for the ham-stringers that are lurking in the tall grass and the saboteurs who are trying to throw monkey-wrenches into the war machinery, to shut off and up or look for unpleasant consequences."

In THE LITERARY DIGEST for June 9th, the leading article discusses from all angles this new kind of German propaganda which the St. Louis Post-Dispatch notes is found not so much in the German-language press, as in certain English-language newspapers in German communities.

This is only one article among many which will be of unusual interest to the Canadian reading public. Other topics are:

Canada to Adopt the Draft

A Mental Tonic That Ensures Breadth of Vision

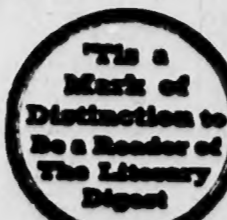

Even the best and most broad-minded of us, if we live constantly in one place, meet the same people, and pursue the same round of daily duties and pleasures, are apt to become parochial, to miss the wide sweep of the winds of thought and progress that blow about the earth. Thus situated, we need some mental tonic, some invigorating stimulus from without to bring us into harmony with the onward march of events. And such a tonic, such a vitalizing

stimulus every one of us may obtain in THE LITERARY DIGEST, which clarifies one's news-impressions, corrects one's world-perspective, and gradually develops in one's mind a sane philosophy of current history. It gives you the news of all countries on all subjects, impartially and interestingly, and indulges in no personal preachments. Clean, sane, and clear-headed, it puts you in weekly touch with the throbbing life of the world. Make trial of it today.

THE EIGHTH CHAMPION "Benny" Leonard is the eighth lightweight champion. Welsh won it from Ritchie and Ritchie won it from Ad Wolgast on a foul in the sixteenth round, November 28, 1912. Wolgast took it from Battling Nelson after four rounds, February 22, 1910. The latter took it from Joe Gans on a knockout in the seventeenth round July 4, 1909. Gans took the honor from Frank Erne in one round, May 12, 1902, after Erne had landed it in a battle with Kid Lavigne July 2, 1899. Kid Lavigne had come into possession of the title by general recognition after the retirement of Jack McAuliffe in 1893. McAuliffe, generally considered the first champion, had held it since 1885.

WARREN PLAYERS REGISTER Eleven of the Warren ball team are eligible for military service and have registered. Burgano and Muench did not have to register, as they are too young. Manager Withrow says that his players are willing to lay away their bats and take up the gun when the U. S. government says so, but he believes the ball players will not be called for military service before September.

JUNIOR BASEBALL In the Sunday School League last night Westminster defeated the Rupert street team at Boyle street grounds by a score of 18 to 12.

FOUR GAMES IN SUNDAY SCHOOL LEAGUE PLAYED

McDougall, Metropolitan, Westminster, Winning Teams—Other Match a Tie.

Four games were played in the Sunday School League last night. In Class C, McDougall, Westminster, Metropolitan, and Westminster won. The grounds were very heavy owing to the recent rains, but the game was spirited and some good plays were made. Features of the game were the two home runs made by B. Daggs of McDougall and H. Webb of First Presbyterian church. The Presbyterian boys lost the initiative in the first inning and were never able to make it dangerous for the Methodist boys throughout the game. The final score was 18 to 5 in favor of the McDougall club. The following was the line-up: McDougall—Hare, Hall, Butchart, Fraser, Kennedy, Dag, Kennedy, Halston. First Presbyterian—Parker, Hamley, Webb, Wheeler, Thom, Moore, Hamly, Edgar, Hunter.

Metropolitan won. In the same class the South Side Baptist boys were matched with the Metropolitan church club. This game was a splendid exhibition of ball and was the best yet played in this league. The final score was 5 to 3 in favor of the Metropolitan. The following was the line-up: Metropolitan—Cowan, Green, Aldridge, Froats, Hamilton, Montague, Elliott, Alton. South Side Baptists—Mossman, McDonald, Fiddler, Brayley, Chalmers, Blaise, Campbell, Jewett.

Sixth Inning Rally Two games were played in class A. The first was played on Boyle street grounds between Rupert street and Westminster clubs. The game was even up to the end of the fifth inning, each having scored 11 runs. In the sixth inning the Westminster boys broke away, and before their rally could be broken seven players crossed the plate. The Rupert street lads in their final endeavor could only bring home one run, leaving the final score 18 to 13 in favor of the Westminster club.

Match Was a Tie The second game in this class was played on Patricia square grounds between teams from the Highlands Methodist and Alberta colleges respectively. The college players lost their nerve in the third inning and allowed their opponents to run up a lead of 15 runs. After vain attempts to check the drive of their adversaries by Robert Thurston and Charlie Talbot, Monty Leonard entered the pitcher's box and disposed of the Highlands boys without allowing any more runs. Then the college boys in their turn took heart and at the close of the seventh inning the game stood a tie, each side having scored 15 runs. On account of rain and darkness the umpire called game at this stage and declared the result a tie.

INDIANS WANT CRAWFORD The Cleveland Indians might now be boasting of Sam Crawford, veteran Tiger slugger, but for something Owner Navin of the Tigers said recently. Navin said: "I won't sell." John D. Dunn, of the Indians, offered to purchase Sam and pay \$6,000 of his \$7,500 salary. Manager Jennings favored the deal, but Navin said nix.

PINKHAM WANTS TITLE Eddie Pinkham and Joe Bailey may be matched to box at Victoria for the Canadian lightweight championship. O'Leary and Bailey both claimed the title. Pinkham eliminated O'Leary and now wants a crack at Bailey.

BIAMEN BEANER FOR CAN It leaks out now that one of Car Mays' bean balls is blamed for the closing of Outfielder Thrasher by Connie Mack. It is said that Thrasher was hitting well and fielding good until hit on the head by one of Mays' shoots in the last series between the Red Sox and Athletics.

AT BANFF The Homestead Hotel at Banff opened for the summer on the first of May. This home when you are away from home needs no introduction. There is something about the place that appeals like and our registrations for last summer show a large number of arrivals than ever before and the number of meals served goes to show how well our tables were patronized. From the 1st of May to the 30th September, 1916, we served over twenty thousand meals. Our guests included doctors, preachers, lawyers, stenographers, clerks, school teachers, etc., and the well-to-do farmers, mostly all staying on long vacations. It is true that living is a bit more expensive than in the past, but we assure you all it will not be enough to prevent our guests from enjoying their winter vacation with us at Banff this summer and we give you a hearty welcome to come again this season. Save the Food and Serye the Empire! The Average Canadian Family Wastes Enough to Feed a Soldier

INTELLIGENT economy in the kitchen can do much to prevent the threatened world famine—can counteract the effect of high prices—and can replace growing debt with systematic saving.

Careful investigations show that before the war the average British family wasted 25% of their food—and we Canadians were even more extravagant.

This waste is not in a few big things, but in many little ones, each, we used to think, too small to bother about—such as careless peeling of vegetables and fruit—failure to make good use of dripping and "left-overs"—and such others as will occur to every thrifty housekeeper.

For the Empire's sake as well as your own, hunt up and cut out these leaks! You'll be helping to relieve the food shortage—saving your own money—and putting yourself in a position to buy Canadian War Savings Certificates and help win the war.

War Savings Certificates are issued in denominations of \$25, \$50 and \$100, to be repaid in three years at full face value. They cost \$21.50, \$43 and \$86 respectively, at all Money Order Post-Offices and Banks, thus yielding over 5% interest. Should you need it, you can get your money back at any time.

Adventures of Uncle Wiggily

By Howard R. Goss

Uncle Wiggily and the Tin Can.

Copyright, 1917, by McClure Newspaper Syndicate.

"Well, we certainly must do something about catching that Uncle Wiggily Longears bunny soldier rabbit gentleman," said one mosquito to another as they buzzed about one day in the dark, dismal swamp where they lived.

"So we must," agreed the second mosquito.

"He gets away every time we try to catch him," said the first mosquito. "Either he finds out the tricks we are going to play on him, or he shoots tooth powder in our eyes so we can't see to bite him."

"That's right!" buzzed a mosquito

Was Troubled With Shortness of Breath

When the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness, and a weak, sinking, all-gone feeling of oppression and anxiety.

The nerves become unstrung, you dread to be alone, have a horror of society, start at the least noise and are generally fatigued.

On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills should be taken. They are just what you require at this time. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mrs. C. M. Cormier, Buctouche, N.B., writes: "Since two years ago I was troubled with a shortness of breath, and sometimes I could hardly breathe. I went to see several doctors, and they said it was from my heart and nerves, but they did not seem to do me any good. One day I got one of your B.B.B. Almanacs and read of a case similar to mine."

"I bought a box of Milburn's Heart and Nerve Pills, and after taking it I noticed such a change that I kept on taking them until I had used four more boxes, when I was cured."

Milburn's Heart and Nerve Pills are 50c a box, three boxes for \$1.35, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of ethine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Hardly is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength ethine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

where he stayed on guard because he was at war with the enemy.

The next evening, just as it was getting dark, about sixteen-eleven billion mosquitoes flew up from their swamp and hid in the empty tin can. Then by twisting their legs and flitting their wings they began to roll it toward the rabbit gentleman's tent, and when it got near enough they would pop out and grab him.

So the can full of mosquitoes began slowly rolling along down a little hill toward the tent.

Now about this time Johnnie and Billy Bushytail, the two squirrel boys; Sammie Littletail, the rabbit chap, and Jackie and Peetle Bow Wow, the puppy dogs, came along with their popguns on their shoulders, having been off in the field drilling and learning to be soldiers, lessons about which the bunny gentleman gave them every day after school.

"Oh, Uncle Wiggily!" cried Billie. "Will you let us shoot our guns just once? We haven't fired them this evening, and we need a little target practice."

"All right," said Mr. Longears. "We will all do a little shooting. Let me see what shall we take for a mark?" And he got his own popgun ready.

"There's a tin can over there," said Sammie Littletail. "Can't we shoot at that?"

"That's what? A tin can?" cried Uncle Wiggily. "I did not know we had any on the place. Must tell Nurse Jane about it, for if it gets full of water and mosquitoes lay eggs in it there will be a million more to bite us."

"So all ready, animal soldier boys! Take good aim at that tin can, and shoot hard and straight! Ready! Take aim! Fire!"

With that Uncle Wiggily and his young soldiers fired their talcum powder popguns, shooting hard bean bag bullets at the tin can in which the mosquitoes had hidden, though the bunny did not know what.

"Bang! Bing! Bung!" rattled the bean bullets on the can. Some made holes in it and some went in the cut open top. The bean bullets hit the mosquitoes on their toes and their noses and on their biting bills.

"Oh, wow!" buzzed the bad biting bugs. "We made another mistake. We did!" buzzed the head lady captain mosquito. "But who would have supposed that they would use our can, in which we were hiding, for a gun target? Oh, dear!"

Then those mosquitoes who could still fly buzzed their way back to the swamp, so they didn't get Uncle Wiggily that time, either.

And if the gold fish doesn't reach up and bite the wax doll's nose when she is leaning over and trying to teach him how to spell "cat," I'll tell you next about Uncle Wiggily and the bat.

OSTEND CRIPPLED AS GERMAN BASE

Photographic Plates Show British Bombardment Was Carried Out Successfully

London, June 8.—A series of photographic plates of the bombardment of Ostend, which have arrived in London, afford a remarkable example of the department of photographic observation and record by airplanes. They show in undeniable fashion that the British bombardment of Ostend last Tuesday was the most successful thing of its kind yet accomplished, insuring that Ostend will be crippled as a useful German base for weeks, if not permanently.

MONTREAL LABOR MEN PROTEST CONSCRIPTION

Montreal, June 8.—The Trades and Labor council of this city last night passed a resolution condemning conscription as unnecessary in Canada, for the reason that the Dominion could best assist the prosecution of the war by developing the productive resources.

Another resolution passed severe

strictures on the imperial munitions board for its treatment of organized labor. A third dealt with the high cost of living and suggested that a food controller and a food commission be appointed, having thereon a representative of labor.

The report was brought on by the reading of the report of the recent trades and labor congress at Ottawa. "We declare ourselves most emphatically opposed to the proposed conscription measure, and we urge the workers of Canada to oppose by every means in their power the en-

actment of such legislation," was the clause in the first-mentioned resolution.

JUST LIKE A HOUSECLEANING

Every room needs an occasional "Cleaning up", no matter how carefully the regular sweeping and dusting is done. Especially is this true after any unusual event, a party, a wedding or a quilting bee.

So it is with your body. No matter how regular your habits or well cooked your food, there comes a time when you don't feel just right. You may recall an unusually hearty meal or two, irregular hours, or eating something that "didn't agree with you", or it may be just the "dust-gathering".

In any case a few doses of a really good cathartic is all you need to put you right. For this purpose nothing is quite so suitable as Chamberlain's Tablets.

Two or three after supper the first night, and one each night for two or three days, and your digestive apparatus is just like the well-cleaned room. Every part of your body is more vigorous, you go about your work with a new feeling and begin to enjoy life. Are these benefits not worth getting? You know they are, and you need have no hesitation about beginning them for fear you must "keep it up". The effect is just the opposite.

SAXON "SIX"

A BIG TOURING CAR FOR 5 PEOPLE

Repeatedly has Saxon "Six" proved its superiority

Not once but many times has Saxon "Six" shown itself a better car than those that claim rivalry by way of price. And these repeated proofs have had their effect. People now seem to know very definitely and decidedly why Saxon "Six" is the best car in its price class.

Quite evidently they have been comparing Saxon "Six" with others in its class. And quite as evidently they have usually arrived at the same deliberate opinion—that Saxon "Six" is a far abler performer, a far better car. Proof of its stability and strength is found in the fact that the average cost per car for repair parts over a period of two years is \$8.50. We urge your inspection of Saxon "Six" at once—preferably today. Saxon "Six" is \$1425 F.O.B. Edmonton.

NEWS OF DISTRICT

POPULAR LAKE

Bulletin Correspondence.
A crime committed, probably by some fool friend of the opposition, no doubt helped to reduce Sutherland's majority at Poplar Lake to five. On the morning of the election day Joe Fielders went to his garage to get his auto to use for conveying voters for Boyle, by request of the committee, but was shocked to find that all his tires had been punctured with nails so he could not use his car. When he looked for his spare inner tubes he found them similarly punctured. The holes were too big to patch and he had no way of repairing the tires.
However, he hitched the horse to the buggy for his mother and sister and he rode his saddle horse to the polls. It is needless to say that those three votes went solid for Boyle and that when the pollsters of the incident reached any indifferent electors it turned them in Boyle's favor. An effort may be made to hound the culprit to his lair.
G. A. Wilkinson is erecting a house and barn on his farm at Bon Accord. The house is a two-story, 24 feet square with basement. The barn is 24 feet by 28 feet. The contract has been let to Mr. Parlee of Edmonton.
Poplar Lake, June 8th.

MYRTLE CREEK

Bulletin Correspondence.
It has required the advancing waves of civilization ten years to place Myrtle Creek on the map. But at last it has arrived good and hard and likely to remain so indefinitely. Ten years has seen the population increase from three to approximately three hundred within the limits of the school district. Myrtle Creek settlement is on the north bank of the Saskatchewan river, thirty-five miles from Fort Saskatchewan and along the Victoria Trail. Commercial travellers say that it has the largest general store between the Fort and Pelly. The school inspector will give the handsome, commodious school house a word of commendation, the post office, in charge of D. Compo, is the best arranged and most systematically conducted, the blacksmith shop and agricultural machine warehouse controlled by Emil Boettcher are convenient, and the various chop and wood-sawing machines have more business than they can satisfactorily handle.
The upland soil of the Myrtle Creek vicinity is the best and most productive northeast of the Vermilion, pastures the finest, water pure and abundant, and the scenery along the Saskatchewan restful to the eye, and appealing to the artist. The business of homesteading has given over to the land purchaser and the real estate agent. There is no vacant land in this vicinity.
Ten years ago the population might be said to comprise in its entirety Peter Robinson, Fred Sweet and A. M. Smith. The former now resides at Clyde, Mr. Sweet is on his farm, while A. M. Smith is doing his bit over in France. The period between 1907 and 1910 witnessed quite an immigration. Then came the Allen, the Sprengle, the Wattle, Weber, Compo, Steeles, Maxwell, Mr. Henry Popple, Nickerson, Warren, Pellants and others. Following 1910 many more came and a large majority of them have remained. Until lately there were few changes in real estate. The Steeles spent two years in Florida, and returned to the old homestead with a black eye for the south-land and high praise for Canada.
Adjoining are other flourishing localities, Pine Creek, Railway Center, Clodford and a large Russian, Lithuanian and Galician settlement southwest of Sucker Brook and along the Victoria Trail to Fort Saskatchewan. The

choosing C.N.R., now laying steel at the rate of a mile and a half a day, and nearing the Vermilion, has located two townships near here, one at Radway Center and the other at Waslatmah. It is problematical which will become the larger, but each of them will receive good patronage from Myrtle Creek, two and a half to three miles distant.
For cosmopolitanism Myrtle Creek is the banner locality. Its population consists of English, Scotch, Irish, Canadians, French-Canadians, Finns, Swedes, Germans, Poles, Colored People, Russians, Lithuanians, Galicians, Japanese, Chinese, "people from the States," and natives.
Owing to its fine pasturage the vicinity of Myrtle Creek is fast becoming one of the best stock sections in the province, and large herds of cattle and horses are yearly becoming larger.
Myrtle Creek, May 30, 1917.

RED WILLOW

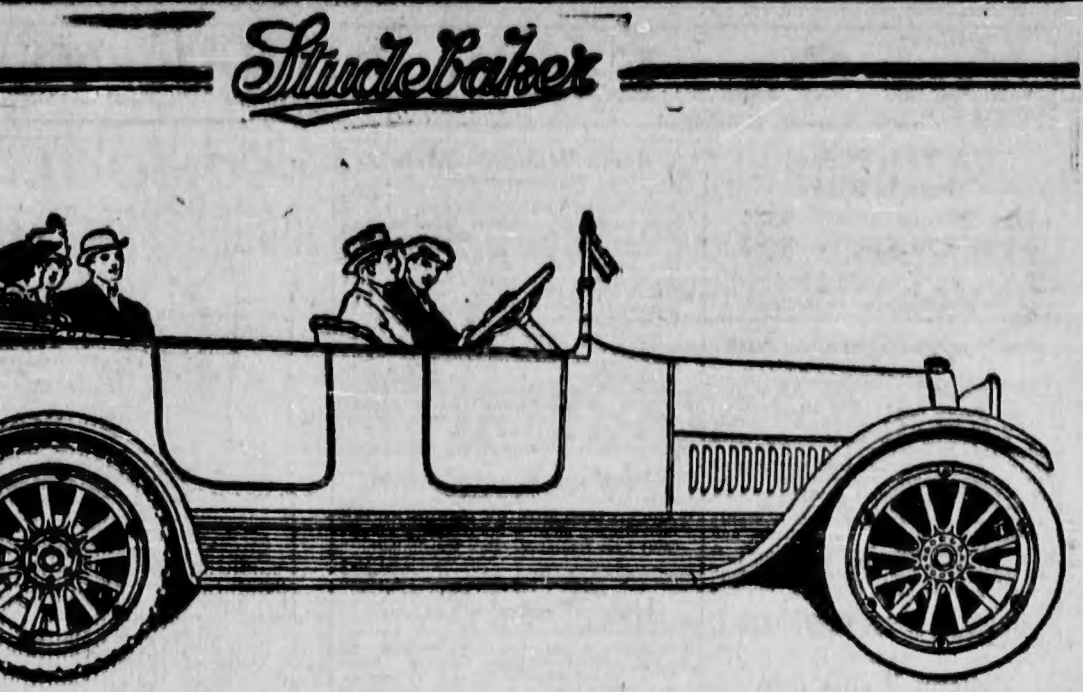

Bulletin Correspondence.
Red Willow district is in the best of the Last Best West. Its possibilities are many and great. Anyone visiting the Peace River and Grande Prairie districts should not overlook the Red Willow. This is a large fertile tract of rolling agricultural land stretching along the picturesque Red Willow river almost as far as the B. C. boundary.
A magnificent view of the Rockies can be had from almost any part of the district. The rugged ridges and valleys of the foothills stretch to the southwest until they blend with the endless chain of snow clad slopes extending along the southwestern horizon. On a clear day over two hundred peaks can be counted with the naked eye.
The fires of the past few years have swept away the underbrush leaving thousands of acres ready for almost immediate cultivation. The settlers are mostly well-to-do industrious farmers. Loss are convenient enabling the settler to build good substantial buildings.
At Halcourt a church, school and post office has been built, while about nine miles west on the north bank of the river stands St. Patrick's Roman Catholic church, with Rev. Father Wagner in charge.
The proposed route of the E. D. & B. C. railway goes through this district, the coal mines and gravel beds along the river forming inducements which no railroad can afford to overlook.
Water can be had in abundance, while peavine and vetch are plentiful, so that this country is one of the best mixed farming and dairying districts in Western Canada.
Red Willow, May 24th.

TURNIP LAKE

Bulletin Correspondence.
Boyle got a majority of one at Turnip Lake. There was a good turnout of the women voters.
Turnip Lake, June 8.

PARIS STRIKES ENDING

Paris, June 8.—The strike movement which existed in Paris during the last three weeks is practically over. The demands of the majority of the strikers have been met by the employers. A few hundred moreco leather workers, purse and bag makers are still out.

The Studebaker Car

From the Standpoint of Economy

IF ECONOMY is to be your consideration from now on, especially in the purchase of your motor car, you should by all means investigate the Studebaker Car from that standpoint.

Where people know cars, in all probability they buy that car in greatest numbers which gives them the greatest value for their money.

Therefore, in Detroit, where 80% of all cars are made, where people know cars, the official registrations show that there are more Studebakers in use than any other car costing over \$500.

In Western Canada, where people prove motor car value and quality, where they test it out, twelve months in the year, on the longest, hardest, hilliest drives, they have found that Studebakers give consistent service, day in and day out, at the least possible maintenance and repair expense.

In the large cities where style is a factor, there are thousands of Studebakers in daily use.

In ratio to power, Studebaker Cars are most economical in gasoline consumption.

In ratio to carrying capacity, their light weight and perfect balance make them most economical in tires—Studebaker owners frequently get from 8,000 to 10,000 miles on a single set of tires.

Studied accessibility reduces inspection, adjustment and repair costs to a minimum.

Therefore, if economy is to be your watchword, buy a Studebaker.

Buy it as an investment—not as an expenditure. If you want to sell it, or trade it in, it will bring a higher re-sale price in ratio to first cost, than most other cars.

The Studebaker Car is the best work of a great Canadian manufacturing organization; it bears a great name, it carries a splendid reputation, and it is protected by a year's guarantee against defective material and workmanship.

Come in and let us show you, point by point, the quality features of this Canadian built car, the features that make it one of the best automobile "buys" in the world.
